

ATLAS

CYBERSECURITY

ARE YOUR DEFENSES READY?

Cyberattacks are becoming increasingly common and criminals have superyachts squarely in their crosshairs.

IS YOUR SUPERYACHT RUNNING A RISK?

VBH has partnered with Atlas Cybersecurity to offer a **FREE five-day security assessment for superyachts**.

DETAILED REPORT AND THE ANSWERS YOU NEED

The scan provides you with a detailed report showing exactly what issues are present and what must be done to resolve them. It explains clearly how to protect owners and their family and guests when onboard.

24/7 SUPPORT

Our solutions include 24/7 live support by a team of military-trained analysts who investigate anything out of the ordinary and take immediate action. You don't have to worry about your private files being accessed as our systems only process metadata (data about data).

To offer you this service VBH is partnering with Atlas Cybersecurity. The founders of the company are advisors to governments on cybersecurity and at the forefront of cyber legislation. They know exactly what you need to do in order to comply with the International Maritime Organization's Cyber Risk Management for Safety Management Systems resolution.

BEFORE A CYBERATTACK

Atlas & VBH can help you preemptively defend yourself from cyber threats by implementing cutting-edge technologies that keep criminals out.

DURING A CYBERATTACK

It is not a matter of if but when your superyacht will be faced with a cyberattack. Atlas's operators are standing by ready to repel any and all attackers.

AFTER A CYBERATTACK

Your response to a cyberattack can be the difference between a nuisance and a complete overhaul of your onboard systems. Atlas can provide remote support anytime to help.

ABOUT ATLAS CYBERSECURITY

Atlas Cybersecurity brings together decades of experience in cybersecurity. The Atlas team has significant experience with Fortune 500 companies, the military, and the intelligence community. They have spent an unprecedented number of hours protecting some of the most sensitive data and systems in the world and are now ready to apply that same experience and expertise to defending superyacht networks.

ABOUT VBH

VBH transforms entertainment onboard superyachts into a luxurious experience based on innovative technology and intuitive controls. We create the AV, IT, lighting, control, communication and security solutions of tomorrow by working closely with a wide network of suppliers and implementing the most innovative products. VBH installations become an integral component of the lives of those who spend time onboard. With a team of 150 dedicated specialists, offices worldwide and 24/7 support, VBH is always ready to provide a premium service.

Being innovative is not something new at VBH: it has been in the company's DNA from the outset. For more than 30 years, VBH has been fully dedicated to integrating luxury technology onboard superyachts and has built an impressive track record over that time. Well over 200 superyachts in the global fleet have already benefitted from the expertise of the VBH team, which has pioneered all kinds of installations.
