

SUBSCRIPTION MANAGEMENT

TV & INTERNET AT SEA

Having access to live TV and internet can be a challenge while travelling at sea.

Finding and matching the best quality providers with your viewing needs and itinerary can be very time consuming and frustrating.

The VBH Subscription team helps to ensure bandwidth regardless of travelling arrangements.

VBH also takes care of the ordering, delivery and installation of decoders if required.

VBH Subscription management Solution at a glance

- Customized content subscription profile based on your itinerary
- Detailed proposal with options with best of class providers and packages
- Ordering, delivery and installation of additional decoders if required.
- Automatic subscriptions renewal service

ENJOYING TECHNOLOGY

ABOUT VBH

At VBH, we apply technology to improve the superyacht experience. We push the boundaries of technological applications. The aim is always to ensure a simpler, better, and more luxurious time onboard.

Over 300 superyachts benefitted from VBH's expertise. We applied innovations in audio, video, IT, lighting, automation, communication, and security. Together with our network of suppliers, we integrate the best products and systems.

Our more than 160 dedicated specialists are skill-full professionals. Their passion for technology helps us find smart solutions fast. We know the particularities of life on a superyacht, that is why we provide premium service, 24/7 across the globe.
