

# PREVENTIVE MAINTENANCE

## PREVENTIVE MAINTENANCE SOLUTIONS

AV- IT and Security systems don't run themselves. Constant monitoring and preventive maintenance is required to ensure that your systems don't fail during those critical times when guest are onboard. Together we determine the priorities and explore where you require hands-on assistance.

The VBH preventive maintenance solution is fully customizable to your needs. We are here to help you to ensure that your systems are running as they should. You can rely on us to assist you when you need it: 24/7.

### WHAT YOU GET:

- Systems performance check
- Custom prioritized ETO maintenance schedule
- Hands-on assistance on-board and/or remote
- A bi-annual maintenance plan with agreed schedule and budget
- Access to our professionals: 24/7
